Jeremy Corey Customer Engineer Cloudflare

Jeremy Corey is a Customer Engineer at Cloudflare with over 21 years of experience across federal and commercial enterprises. His expertise spans network security, public key infrastructure, threat intelligence, digital forensics, and security automation. Jeremy serves on multiple industry advisory boards and is Co-founder of 4CORE, LLC, a Boulder-based cybersecurity engineering firm.

At Cloudflare, Jeremy focuses on helping organizations modernize their security posture - with particular emphasis on post-quantum cryptography, Zero Trust architecture, and securing AI adoption across enterprise environments.
